

## OVERVIEW

At ABT Power Management, we provide motive and reserve power solutions to our customers with two key goals in mind: to deliver power at the lowest cost of ownership possible, and to offer complete peace of mind.

## POWER MANAGEMENT

### COMPANY HQ

ABT Power Management  
518 Teague Street  
Greensboro, NC 27406

## MARKETS WE SERVE

### MATERIAL HANDLING

### AIRLINE GROUND SUPPORT

### PROPRIETARY POWER SOLUTIONS

#### GuaranteedPOWER

With **GuaranteedPOWER®**, our flagship program, all of your motive power needs are incorporated into one fixed monthly fee.

#### FleetPOWER

Our **FleetPOWER™** program allows our customers to manage their own power, but only after we've designed a customized program.

#### RAAMS

Our **Remote Automated Asset Management System (RAAMS)** helps customers track and manage their assets by collecting data on batteries and chargers.

## RESERVE POWER

From site assessment to equipment installation to ongoing proactive maintenance, our team has the engineering experience and the superior service standards to ensure that when your primary power fails, your reserve power will not.

### RESERVE SOLUTIONS & SERVICES

- |                             |                               |
|-----------------------------|-------------------------------|
| UPS Battery Maintenance     | DC Power Plant Installation   |
| Diesel Fuel Management      | HX Battery Master Distributor |
| IR Scanning (Thermography)  | DC Battery Installation       |
| Cable Management            | Engineered System Design      |
| Battery Recycling           | Critical Infrastructure PM's  |
| Project Management          | Enclosures & Racks            |
